

Focus on what you do best

Boost your productivity

Amadeus Selling Platform Connect was created with a spirit of innovation in mind. Its advanced features reduce administrative tasks and boost your productivity. The result? You get to spend more time on what you do best: creating amazing travel experiences for your customers.

Increase your productivity

Amadeus Selling Platform Connect delivers a range of time-saving features – such as Smart Flows, File Finishing, Smart Triggers, Quality Monitor and Cryptic Magic GDS translation tool – designed to improve both your performance and your productivity, saving you time and money.

Easy, intuitive interface

The simple-to-use Graphical User Interface (GUI) adapts completely to your way of working and you can easily and seamlessly switch between cryptic commands and the graphical interface at any point in time during your booking while preserving the context. Expert cryptic users can still use the cryptic environment, with an alternative easy solution to perform complex or infrequent tasks by switching to graphic, when they want. On the other hand, newcomers will be able to get started quickly with minimal training, by going straight to graphic from day 1.

Manage the entire journey from one place

Manage your customer's entire journey by creating quotes, booking, amending, invoicing and checking payments, all seamlessly from one place.

Ease and efficiency

You can open, and work on, six independent tasks/sessions at the same time, similar to different sheets in Microsoft Excel. Each task is independent, yet remains visible and accessible at all times.
